Profile

Senior UX leader with over a decade of experience driving product design, systems architecture, and 0-to-1 execution across data-dense platforms and fintech. I combine rigorous user research and hands-on prototyping with a strong grasp of product strategy and business metrics. As an active TCG collector currently building an independent valuation and liquidity tool, I pair deep UX craft with a practical understanding of secondary market behaviors, inventory velocity, and player motivation.

Skills & Tools

Product Strategy & Delivery – 0-to-1 product definition, feature prioritization, agile/scrum collaboration, technical roadmapping, cross-functional team leadership, accessibility best practices, stakeholder engagement

Software & AI – Figma, Cursor, Copilot, Gemini, Git, Next.js, Vercel, Adobe Creative Cloud

Product & UX Design – Systems architecture, design systems, prototyping, user flows, information architecture

User Research & Analytics – Competitive teardowns, marketplace liquidity diagnostics, user interviews, journey mapping, UserTesting.com, Maze, Google Analytics, Hotjar, Fullstory, Clarity, WalkMe, SurveyMonkey

Experience

Mintwise – Fishers, IN – Jun 2026 - Present

Founder & Product Lead

- Designed and built the 0-to-1 prototype for an independent TCG portfolio liquidity tool focused on helping collectors assess market velocity and ease-of-sale beyond static pricing
- Led end-to-end product design and technical prototyping, using an AI-assisted workflow (Cursor, Next.js, Vercel) to iterate on interface clarity and data density
- Conducted competitive teardowns of secondary market tools to pinpoint UX friction in portfolio tracking, inventory liquidation, and collector workflows
- Collaborated on API integrations and data models to test liquidity scores against real-world secondary market transaction behavior

Allied Solutions – Carmel, IN – August 2024 - Present

Sr. UX Designer

- Lead UX and product design for a new data reporting software product, ensuring alignment with business objectives and accessibility and usability best practices, that resulted in a perfect 5/5 SUPR-Q score in beta
- Scaled design efficiency by pioneering our AI-first prototyping workflow and training the team
- Leverage Cursor, Figma Make, and Copilot daily to iteratively refine complex, data-heavy interfaces and reduce time to delivery
- Manage a student UX project in partnership with a local university, acting as a mentor and providing project oversight
- Collaborate with product management to define product requirements and roadmaps, ensuring key user needs were prioritized and integrated into the development cycle

Site Strategics – Indianapolis, IN – May 2024 - August 2024

UX Consultant

- Strategized and executed a cross-functional approach blending digital marketing with UX to deliver cohesive client solutions
- Nurtured strong, collaborative client relationships, ensuring project goals were aligned with business objectives and user needs
- Designed high-converting, SEO-optimized landing pages and websites to increase organic engagement

StackSource – New York, NY – Nov 2022 - Oct 2023

Senior Director of UX and Marketing

- Grew organic search acquisition by 45% by implementing a new audience-focused content strategy and up-leveling organizational design maturity
- Achieved an 80% reduction in overhead costs by leading the user research and design for a partner API experience to activate company growth strategy

StackSource – New York, NY – May 2021 - Nov 2022

UX Lead

- Evaluated, selected, and managed budget for tools for user behavior analysis, research, marketing, and design
- Planned, wrote, and executed user studies in alignment with roadmap goals
- Led execution of product design and enhancements, resulting in 92% of core audience reporting it was easier to use in a research study

OneAmerica Financial– Indianapolis, IN – Jan 2019 - May 2021

UX Director

- Established foundational UX practices, process documentation, and a comprehensive design system while leading a team of UX researchers and designers
- Created and socialized a 3-year UX practice growth roadmap to align with marketing and IT organization planning, assisting Product Owners with roadmaps and stakeholder management
- Served as a key liaison between UX, product, and engineering, guiding accurate cost and work estimates for the company's first enterprise mobile app project

OneAmerica Financial – Indianapolis, IN – May 2016 - Jan 2019

UI Design and Digital Marketing Leader

- Built a new team to grow our enterprise digital presence, serving enterprise digital marketing needs through collaboration and partnership
- Managed a 72% increase in UI and digital marketing design jobs opened, while reducing the time those jobs stayed with the design team by 44% and the length of jobs in days by 61%
- Wrote and implemented processes and workflows for the UI design team, setting the stage for efficiency and prioritization improvements seen in subsequent years

OneAmerica – Indianapolis, IN – Jun 2015 - May 2016

Senior UI Designer

Perficient – Carmel, IN – Oct 2014 - May 2015

UX Consultant

Orchard Software – Carmel, IN – Jun 2013 - Oct 2014

Lead Web Strategist
