Profile

I'm passionate about creating products and experiences that are valuable and equitable. An experienced practitioner and leader, I have executed work and built engaged, cross-functional teams in startup-to-enterprise environments. I believe that nurturing relationships – with team members, stakeholders, and users – is essential to delivering great design.

Skills & Tools

UX & Product Design – Wireframes, prototypes, user flows, design reviews, UI and interaction design

Strategy & Collaboration – Product strategy, information architecture, stakeholder engagement, leadership

Tools & Software – Figma, Sketch, Adobe Creative Cloud (Photoshop, Illustrator, InDesign), Cursor, xCopilot

User Research & Analytics – Competitive analysis, user interviews, UserTesting.com, Userbrain, Hotjar, Fullstory

Agile & Cross-functional Work – Sprint planning, scrum team collaboration, accessibility best practices

Experience

Allied Solutions – Carmel, IN – August 2024 - Present

Sr. UX Designer

- Lead UX and interaction design for a new data reporting software product, ensuring alignment with business objectives and accessibility and usability best practices
- Execute the design process by iteratively refining design work from usability testing with researchers, receiving commendation from stakeholders and executive leadership for speed and agility
- Present work and collaborate in sprint and design reviews
- Manage a student UX project in partnership with a local university, acting as a mentor and providing project oversight
- Help define product requirements and roadmap in collaboration with product management

Site Strategics – Indianapolis, IN – May 2024 - August 2024

UX Consultant

- Engage in a cross-functional role that combines strategic planning as well as tactical delivery in digital marketing and UX
- Manage client relationships with empathy and collaboration
- Execute pixel perfect designs for landing pages and websites, optimizing for both SEO and user-centric experiences

Cyware – Jersey City, NJ – Jan 2024 - May 2024

UX Consultant

- Conducted competitive analysis and heuristic evaluation to support website refresh strategy for a cybersecurity company
- Created mockups, website components, and an accessible color palette for brand refresh
- Designed deliverables including landing pages, email campaigns, and social media assets

StackSource – New York, NY – Nov 2022 - Oct 2023

Senior Director of UX and Marketing

- Led user research and design of partner API experience to activate company growth strategy
- Up-leveled organizational design maturity by creating customer centric experiences
- Built marketing growth strategy to create 80% reduction in overhead costs
- Grew organic search acquisition by 45% by implementing an audience-focused content strategy

StackSource – New York, NY – May 2021 - Nov 2022

UX Lead

StackSource, New York, NY – May 2021 - Nov 2022

- Evaluated, selected, and managed budget for tools for user behavior analysis, research, marketing, and design
- Planned, wrote, and executed user studies in alignment with roadmap goals
- Led execution of product design and enhancements, resulting in 92% of core audience reporting it was easier to use in a research study

OneAmerica – Indianapolis, IN – Jan 2019 - May 2021

UX Director

- Developed foundational best practices, process documentation, and a design system, while leading a team of UX researchers and designers
- Acted as a liaison between UX design, product management, and engineering, guiding accuracy of cost and work estimates for our first enterprise mobile app project
- Assisted Product Owners with roadmaps and stakeholder relationship management
- Created and socialized a 3-year UX practice growth roadmap to align with marketing and IT org planning

OneAmerica – Indianapolis, IN – May 2016 - Jan 2019

UI Design and Digital Marketing Leader

- Built a new team to grow our enterprise digital presence, serving enterprise digital marketing needs through collaboration and partnership
- Managed a 72% increase in UI and digital marketing design jobs opened, while reducing the time those jobs stayed with the design team by 44% and the length of jobs in days by 61%
- Wrote and implemented processes and workflows for the UI design team, setting the stage for efficiency and prioritization improvements seen in subsequent years

OneAmerica – Indianapolis, IN – Jun 2015 - May 2016

Senior UI Designer

Perficient – Carmel, IN – Oct 2014 - May 2015

UX Consultant

Orchard Software – Carmel, IN – Jun 2013 - Oct 2014

Web Producer
